PRODUCT FLYER

Give your small business customers industry-leading technology without big business headaches or out-of-reach prices. An affordable, full-service bundle of high-performance, easy-to-use software tools, Novell® Small Business Suite 6.6 instantly and effortlessly transforms the small business into a fully networked powerhouse primed for success.

OVERVIEW

Novell Small Business Suite 6.6 is the ideal foundation for small business networks. The suite works with an impressive array of line-of-business (LOB) applications, enabling small business customers to leverage the industry-specific software on which they've come to depend. Novell Small Business Suite also features the latest Novell networking, collaboration, management and security products—at a fraction of their individual cost. With this award-winning technology in place, small business owners have the confidence to focus on what matters most—the continued success of their business—rather than their networks.

For added cost savings and scalability—your small business needs plenty of room to grow—Novell Small Business Suite 6.6 now offers customers 100 user licenses. In addition, new configuration wizards make it easy to deploy the included, comprehensive networking solutions.

SUPPORT CRITICAL LINE-OF-BUSINESS APPLICATIONS

Novell Small Business Suite 6.6 supports many LOB applications—essential for the day-to-day operation of small businesses worldwide. To view a list of supported applications or to suggest coverage for an application, go to the ever-expanding Novell partner solutions site at http://www.novell.com/coololutions/smallbiz/partner_solutions.html.

LEVERAGE BIG BUSINESS ASSETS INEXPENSIVELY

With Novell Small Business Suite 6.6, your small business customers receive big business networking at an affordable price. The proven foundation for its rich feature set is NetWare—the most secure and reliable network platform for businesses of any size. Leveraging the award-winning, full-service Novell eDirectory™, NetWare delivers proven security, high availability and anywhere, anytime access. A NetWare-enabled two-node cluster provides

“The need for network reliability, security and return on investment is not limited to big corporations... Novell’s solution is giving my customers the tools they need to stay ahead.”

Novell®

failover protection. Users can leverage the self-service and collaboration capabilities of NetWare—from anywhere—using the suite’s Virtual Office capabilities. Through a personal portal all business-critical resources, including files, printers, e-mail, calendars and real-time interaction tools, are immediately available using virtually any device.

Novell Small Business Suite 6.6 also provides full-featured collaboration with GroupWise® 6.5. GroupWise, which offers enhanced administrative tools as well as built-in anti-spam features and anti-virus support, is inherently more secure than competitive collaboration products. Security is at the heart of BorderManager® 3.8, which adds its premier firewall and VPN technologies to the impressive feature set in Novell Small Business Suite 6.6. Finally, delivering unparalleled desktop management and application distribution, ZENworks® 6.5 Desktop Management rounds out the list of components in Novell Small Business Suite.

INCREASE ROI AND FOCUS ON OPPORTUNITIES

With Novell Small Business Suite 6.6, owners can improve the daily operation of their businesses—and their bottom line—while experiencing less downtime. The suite’s real-time administration tools and secure, anywhere-access features enable simplified network management from even a remote Web browser. Owners will trust in their network’s performance and stability and can concentrate on business growth and continuing success. In addition, with access to company

data from anywhere 24 hours a day, every day, employee productivity improves. And by sharing their business data—effectively and safely—with customers, partners and suppliers alike, they’ll capitalize on new opportunities, accelerate supply chains and maximize customer satisfaction.

FEATURES

Novell Small Business Suite 6.6 offers the following proven features:
