Promotional Pricing for Novell Privileged User Manager

Novell is pleased to announce promotional pricing for Novell Privileged User Manager. Novell Privileged User Manager lets you control access to super user and root account privileges on your SUSE Linux servers. You define which commands users are able to execute, at what time, and from what location.

Promotion Information

This promotion allows new or existing SUSE Linux Enterprise Server customers to purchase a one-year priority subscription to Novell Privileged User Manager for \$599 per instance (an instance is a physical or virtual server). This promotion begins on June 16, 2009 and ends on October 30, 2009.

At the end of the one-year subscription, customers may purchase a subscription to Novell Privileged User Manager for SUSE Linux Enterprise Server at then current prices.

To be eligible for this promotion, customers must:

- Currently subscribe to SUSE Linux Enterprise Server
- Purchase the Novell Privileged User Manager subscription prior to the end of the promotion

Restrictions

- Discounts beyond VLA or MLA contractual discounts will not be granted on this promotional price
- Promotion applies to Novell Privileged User Manager deployments on SUSE Linux Enterprise Server only. Customers who wish to deploy Novell Privileged User Manager on other Linux/UNIX/*nix systems must purchase a perpetual license of Novell Privileged User Manager (see NPA 5874 for details)
