

# End-User Computing Dynamic Storage Technology

Kevin Smith  
[ksmith@novell.com](mailto:ksmith@novell.com)

## About This Document

Each Utopia Demo will have two or three pieces of documentation, to be used as follows:

1. use this Quickstart to prepare for your demo meeting. It includes everything you need to know to get the right virtual machines started and ready to begin showing the solution. Use this quickstart if you are building the demo locally on your own hardware or if you are accessing a pre-built version on the Novell Online Demo System (NODS)
2. Once your demo virtual machines are started and at the right place you're ready to begin your demo. If you know the products and your customer's requirements then you can go ahead and deliver your own demo using the system. However if you would like further instructions then the Tutorial will give you a guide of how to drive the demo.
3. In some cases a third piece - a Sample Demo is provided, which gives an illustration of how the solution might be shown to a customer.

For online copies of all these documents please visit <http://www.novell.com/partners/demosystems>

## Demo Synopsis

Works through an overview of Dynamic Storage technology.

- Create a shadow Volume
- Create policy and move data
- Show User before and After

## Setup Instructions

### Virtual Machines

OES2SP1UTP			
IP address	Memory	Disk Space	DVD #
172.17.2.71	1024	4 GB	1a

SLED10SP2ClientUTP			
IP address	Memory	Disk Space	DVD #
172.17.2.72	1024	4.8 GB	1b

### User ID's

- u:Admin p:n0v3ll
- u:bob p:novell

- u:users.bob p:novell

### Useful URLs

All URLs can be found from the home screen, select Management Services or Client Software

- Remote Manager <https://oes2sp1utp.utopia.novell.com:8009/>

### Preparing The Demo

- OES2SP1UTP
  - login as root
  - load partitioner found in YaST
  - 2 x nautilus windows pointing to /media/nss/DATAACTIVE & /media/nss/DATASTALE
  - Novell Remote Manager
- SLED10SP2ClientUTP
  - login in as bob
  - login using the Novell Client (red N start bar) as bob context is users.utopia

### Notes / Issues

Firefox on OES2SP1UTP has no Java Plugin installed

### Where next?

- Visit our documentation site at <http://www.novell.com/partners/demosystems> and navigate to the demo you are preparing
- Watch the Tutorial for your demo.
- Watch the Sample Demo if one is provided.
- In case of any issues please post your query to the support forum at <http://forums.novell.com/novell-product-support-forums/utopia/>
- OES2 SP1 Documentation <http://www.novell.com/documentation/oes2/index.html>
- Dynamic Storage Technology Documentation <http://www.novell.com/documentation/oes2/storage.html#b14wntyf>
