

# Data Center PlateSpin Migrate

Kevin Smith [ksmith@novell.com](mailto:ksmith@novell.com)

## About This Document

Each Demo will have two or three pieces of documentation, to be used as follows:

1. Use this Quickstart to prepare for your demo meeting. It includes everything you need to know to get the right virtual machines started and ready to begin showing the solution. Use this Quickstart if you are building the demo locally on your own hardware or if you are accessing a pre-built version on the Novell Online Demo System (NODS)
2. Once your demo virtual machines are started and at the right place you're ready to begin your demo. If you know the products and your customer's requirements then you can go ahead and deliver your own demo using the system. However if you would like further instructions then the Tutorial will give you a guide of how to drive the demo.
3. In some cases a third piece - a Sample Demo is provided, which gives an illustration of how the solution might be shown to a customer.
4. For online copies of all these documents please visit the [Novell Demo Systems Portal](#).

## Brief Description

The demo is built in a way you can demonstrate PlateSpin Migrate using a demo database.

- PlateSpin Migrate 9.0

## Setup Instructions

### Virtual Machines

PSMigrateUTP			
IP address	Memory	Disk Space	Creation Date
172.17.2.30	1024	6GB	July 2010

### User ID's

u:Administrator p:n0v3ll

### Preparing The Demo

For the VM to function Win2k3R2EEBaseUTP (Win2k3R2EEBaseUTPJun10.part01 – 05.rar) must be present and must have the he same parent directory. Only one instance is required as the base can be shared amongst all Virtual Machines. It is also recommend you flag the base readonly.

Example:

```
\\VMware
\\VMware\Win2k3R2EEBaseUTP
\\VMware\PSReconUTP
\\VMware\PSForgeUTP
\\VMware\PSProtectUTP
\\VMware\PSMigrateUTP
```

Power on the machine and open the migrate console via the shortcut on the desktop.

### **Notes / Issues**

After the initial boot things may seem a bit sluggish, please allow a few minutes for the database to come up to speed.

### **Where next?**

- In case of any issues please post your query to the support forum at <http://forums.novell.com/novell-product-support-forums/utopia/>
