

Data Center PlateSpin Portability Suite & Recon

Kevin Smith ksmith@novell.com

About This Document

Each Demo will have two or three pieces of documentation, to be used as follows:

1. Use this Quickstart to prepare for your demo meeting. It includes everything you need to know to get the right virtual machines started and ready to begin showing the solution. Use this Quickstart if you are building the demo locally on your own hardware or if you are accessing a pre-built version on the Novell Online Demo System (NODS)
2. Once your demo virtual machines are started and at the right place you're ready to begin your demo. If you know the products and your customer's requirements then you can go ahead and deliver your own demo using the system. However if you would like further instructions then the Tutorial will give you a guide of how to drive the demo.
3. In some cases a third piece - a Sample Demo is provided, which gives an illustration of how the solution might be shown to a customer.
4. For online copies of all these documents please visit the [Novell Demo Systems Portal](#).

Brief Description

The PSDemo demo is built in a way you can demonstrate both PlateSpin Portability Suite and PlateSpin Recon using a demo database.

- PlateSpin Migrate 8.1 (Build 6831)
- PlateSpin Protect 8.1 (Build 6831)
- PlateSpin Recon 3.6 (Build 3779)

Setup Instructions

Virtual Machines

PSDemoUTP			
IP address	Memory	Disk Space	Creation Date
172.17.2.49	2048	30GB	22/08/09

User ID's

u:Administrator p:n0v3ll

Preparing The Demo

Power on the machine and you should be all set . The two application icons for the Portability Suite and Recon are on the desktop.

Notes / Issues

No know issues at this time.

Where next?

- Visit our documentation site at <http://www.novell.com/communities/demosystems/platespin-protect-migrate-and-recon>
- Watch the Flash Tutorial for your demo or read the demo script, where provided.

- Watch the Sample Flash Demo if one is provided.
- In case of any issues please post your query to the support forum at <http://forums.novell.com/novell-product-support-forums/utopia/>
