

Data Center PlateSpin Recon

Kevin Smith ksmith@novell.com

About This Document

Each Demo will have two or three pieces of documentation, to be used as follows:

1. Use this Quickstart to prepare for your demo meeting. It includes everything you need to know to get the right virtual machines started and ready to begin showing the solution. Use this Quickstart if you are building the demo locally on your own hardware or if you are accessing a pre-built version on the Novell Online Demo System (NODS)
2. Once your demo virtual machines are started and at the right place you're ready to begin your demo. If you know the products and your customer's requirements then you can go ahead and deliver your own demo using the system. However if you would like further instructions then the Tutorial will give you a guide of how to drive the demo.
3. In some cases a third piece - a Sample Demo is provided, which gives an illustration of how the solution might be shown to a customer.
4. For online copies of all these documents please visit the [Novell Demo Systems Portal](#).

Brief Description

The demo is built in a way you can demonstrate PlateSpin Recon using a demo database.

- PlateSpin Recon 3.7.1

Setup Instructions

Virtual Machines

PSReconUTP			
IP address	Memory	Disk Space	Creation Date
172.17.2.32	2048	5.25GB	July 2010

User ID's

u:Administrator p:n0v3ll

Preparing The Demo

For the VM to function Win2k3R2EEBaseUTP (Win2k3R2EEBaseUTPJun10.part01 – 05.rar) must be present and must have the he same parent directory. Only one instance is required as the base can be shared amongst all Virtual Machines. It is also recommend you flag the base readonly.

Example:

```
\\VMware
\\VMware\Win2k3R2EEBaseUTP
\\VMware\PSReconUTP
\\VMware\PSForgeUTP
\\VMware\PSProtectUTP
\\VMware\PSMigrateUTP
```

Power on the machine and open the recon console via the shortcut on the desktop. Authenticate using the widows session credentials.

Notes / Issues

After the initial boot things may seem a bit sluggish, please allow a few minutes for the database to come up to speed.

Charts are on available with a 1 hour or 1 day duration.

Where next?

- In case of any issues please post your query to the support forum at <http://forums.novell.com/novell-product-support-forums/utopia/>
