

End-User Computing Teaming V2

Kevin Smith ksmith@novell.com

About This Document

Each Demo will have two or three pieces of documentation, to be used as follows:

1. Use this Quickstart to prepare for your demo meeting. It includes everything you need to know to get the right virtual machines started and ready to begin showing the solution. Use this Quickstart if you are building the demo locally on your own hardware or if you are accessing a pre-built version on the Novell Online Demo System (NODS)
2. Once your demo virtual machines are started and at the right place you're ready to begin your demo. If you know the products and your customer's requirements then you can go ahead and deliver your own demo using the system. However if you would like further instructions then the Tutorial will give you a guide of how to drive the demo.
3. In some cases a third piece - a Sample Demo is provided, which gives an illustration of how the solution might be shown to a customer.
4. For online copies of all these documents please visit the [Novell Demo Systems Portal](#).

Brief Description

The Collaboration UTP demo is built in a way you can demonstrate all Novells Collaboration products. This quick start will just focus on Teaming.

- Teaming V2 Demo
- Novell Conferencing Demo
- GroupWise V8 Demo
- GroupWise Messenger Demo

Setup Instructions

Virtual Machines

CollaborationUTP			
IP address	Memory	Disk Space	Creation Date
172.17.2.86	1280	7GB	01/08/09
172.17.2.87			
172.17.2.88			
172.17.2.89			

User ID's

Preparing The Demo

Power on the machine and you should be all set .

Notes / Issues

No know issues at this time.

Where next?

- Visit our documentation site at <http://www.novell.com/communities/demosystems/teaming-conferencing-demo>
- Watch the Flash Tutorial for your demo or read the demo script, where provided.
- Watch the Sample Flash Demo if one is provided.
- In case of any issues please post your query to the support forum at <http://forums.novell.com/novell-product-support-forums/utopia/>
