

Identity and Security Access Governance

[Roles Lifecycle Manager]

Patrick Holderness

pholderness@novell.com

About This Document

Each Utopia Demo will have two or three pieces of documentation, to be used as follows:

1. Use this Quickstart to prepare for your demo meeting. It includes everything you need to know to get the right virtual machines started and ready to begin showing the solution. Use this quickstart if you are building the demo locally on your own hardware or if you are accessing a pre-built version on the Novell Online Demo System (NODS)
2. Once your demo virtual machines are started and at the right place you're ready to begin your demo. If you know the products and your customer's requirements then you can go ahead and deliver your own demo using the system. However if you would like further instructions then the Tutorial will give you a guide of how to drive the demo.
3. In some cases a third piece - a Sample Demo is provided, which gives an illustration of how the solution might be shown to a customer.

For online copies of all these documents please visit <http://www.novell.com/partners/demosystems>

Demo Synopsis

Roles Lifecycle Manager showcases the integration of Novell Identity Manager with Novell Access Governance by automating the role creation, assignment, or revocation done via the Compliance Certification Manager.

In this implementation roles are synchronized with the Roles Based Provisioning Module and entitlements are synchronized with Identity Manager to demonstrate how business stakeholders and technical team members can collaborate in the creation and maintenance of effective roles.

Setup Instructions

Virtual Machines

ISM-IDV			
IP address	Memory	Disk Space	DVD #
172.17.2.91	896 MB	8.78 GB	3a

ISM-AGS			
IP address	Memory	Disk Space	DVD #
172.17.2.99	1024 MB	14.4 GB	3b

User ID's

u:root p:n0v3ll

u:AveksaAdmin p:N0v3ll00

u:mmackenzie p:novell

u:fstats p:novell

u:cnano p:novell

u:padmin p:n0v3ll

Useful URLs

A Utopia folder listing useful URLs is available in the favorites on each machine referenced. The Novell Access Governance Suite and the Identity Manager User Application must be used in conjunction with this demonstration.

<http://172.17.2.99:8080/aveksa>

<http://172.17.2.91:8080/IDM/jsps/login/Login.jsf>

Preparing The Demo

Enter instructions here for how to start the machines and get them ready to demo.

e.g.

- Start/resume ISM-IDV
- Start/resume ISM-AGS
- Once ISM-IDV has started/resumed, login as root
- Once ISM-AGS has started/resumed, login as root
- Use Firefox tabs to access the Novell Access Governance Suite and the Novell Identity Manager User Application.

Notes / Issues

The Novell Roles Lifecycle Manager is very closely related to the Novell Compliance Certification Manager. If you have not already reviewed that demonstration please do so..

Where next?

- Visit our documentation site at <http://www.novell.com/partners/demosystems> and navigate to the demo you are preparing
- Watch the Tutorial for your demo.
- Watch the Sample Demo if one is provided.
- In case of any issues please post your query to the support forum at <http://forums.novell.com/novell-product-support-forums/utopia/>
