

# Identity and Security Access Management

[Access Manager: Integration and Interoperability]

Patrick Holderness

[pholderness@novell.com](mailto:pholderness@novell.com)

## About This Document

Each Utopia Demo will have two or three pieces of documentation, to be used as follows:

1. Use this Quickstart to prepare for your demo meeting. It includes everything you need to know to get the right virtual machines started and ready to begin showing the solution. Use this quickstart if you are building the demo locally on your own hardware or if you are accessing a pre-built version on the Novell Online Demo System (NODS)
2. Once your demo virtual machines are started and at the right place you're ready to begin your demo. If you know the products and your customer's requirements then you can go ahead and deliver your own demo using the system. However if you would like further instructions then the Tutorial will give you a guide of how to drive the demo.
3. In some cases a third piece - a Sample Demo is provided, which gives an illustration of how the solution might be shown to a customer.

For online copies of all these documents please visit <http://www.novell.com/partners/demosystems>

## Demo Synopsis

The Novell Access Manager Access Gateway provides security to web applications via authentication, authorization, web single sign-on, identity injection and data encryption. The most compelling reason for implementing the Access Gateway is that existing web applications can support new identity services without any modification.

In this implementation Access Manager has been configured to demonstrate each of the Access Gateway features mentioned above.

## Setup Instructions

### Virtual Machines

ISM-IDV			
IP address	Memory	Disk Space	DVD #
172.17.2.91	896 MB	8.78 GB	3a

ISM-AM-IDS			
IP address	Memory	Disk Space	DVD #
172.17.2.101	512 MB	4.37 GB	3c

ISM-AM-AG			
IP address	Memory	Disk Space	DVD #
172.17.2.102	512 MB	2.37 GB	3c
172.17.2.103			
172.17.2.104			

ISM-W2003 (Optional)			
IP address	Memory	Disk Space	DVD #
172.17.2.93	768 MB	14 GB	3a

### User ID's

u:root p:n0v3ll

u:administrator p:n0v3ll

u:ablake p:novell

### Useful URLs

A Utopia folder listing useful URLs is available in the favorites on each machine referenced. The Access Manager Demo website and the Identity Manager User Application must be used in conjunction with this demonstration. Single sign on to Outlook Web Access can be demonstrated using the optional Windows 2003 Server image.

<http://ism-idv.ism.utopia.novell.com/IDM>

<https://ism-w2003.ad.ism.utopia.novell.com/owa>

### Preparing The Demo

- Start/Resume ISM-IDV.
- Start/Resume ISM-AM-IDS.
- Start/Resume ISM-AM-AG.
- Start/Resume ISM-W2003 (Optional)
- Once all machines are operational login to ISM-IDV as root.
- Open Firefox and load "Access Manager Demo" from the Utopia bookmarks folder.

### Notes / Issues

You will be prompted to accept several certificates. It is best to use the accept permanently option.

### **Where next?**

- Visit our documentation site at <http://www.novell.com/partners/demosystems> and navigate to the demo you are preparing
- Watch the Tutorial for your demo.
- Watch the Sample Demo if one is provided.
- In case of any issues please post your query to the support forum at <http://forums.novell.com/novell-product-support-forums/utopia/>
