

# Identity and Security Access Governance

[Compliance Certification Manager]

Patrick Holderness

[pholderness@novell.com](mailto:pholderness@novell.com)

## About This Document

Each Utopia Demo will have two or three pieces of documentation, to be used as follows:

1. Use this Quickstart to prepare for your demo meeting. It includes everything you need to know to get the right virtual machines started and ready to begin showing the solution. Use this Quickstart if you are building the demo locally on your own hardware or if you are accessing a pre-built version on the Novell Online Demo System (NODS)
2. Once your demo virtual machines are started and at the right place you're ready to begin your demo. If you know the products and your customer's requirements then you can go ahead and deliver your own demo using the system. However if you would like further instructions then the Tutorial will give you a guide of how to drive the demo.
3. In some cases a third piece - a Sample Demo is provided, which gives an illustration of how the solution might be shown to a customer.

For online copies of all these documents please visit <http://www.novell.com/communities/demosystemsbook>

## Demo Synopsis

Novell Compliance Certification Manager allows business stakeholders to define who should have access to what resources in the organization.

In this implementation sample certifications have been generated for both managerial and application owner reviews as well as defining a certification manager to monitor both processes.

## Setup Instructions

### Virtual Machines

ISM-AGS			
IP address	Memory	Disk Space	DVD #
172.17.2.99	2048 MB	14.9 GB	3b

### User ID's

u:root p:n0v3ll

u:AveksaAdmin p:N0v3ll00

u:mmackenzie p:novell

u:kkeller p:novell

### **Useful URLs**

A Utopia folder listing useful URLs is available in the favorites on the machine referenced. The Novell Access Governance Suite must be used in conjunction with this demonstration.

<https://ism-ags/aveksa/main>

### **Preparing The Demo**

- Start/resume ISM-AGS
- Once ISM-AGS has started/resumed, login as root
- Use Firefox to access the Novell Access Governance Suite
- To demonstrate the managerial review login as mmackenzie
- To demonstrate the application review login as kkeller

### **Notes / Issues**

The Novell Compliance Certification Manager is very closely related to the Novell Roles Lifecycle Manager. If your customer is using Identity Manager make sure that you demonstrate that component as well.

### **Where next?**

- Visit our documentation site at <http://www.novell.com/communities/demosystemsbook> and navigate to the demo you are preparing
- Watch the Tutorial for your demo.
- Watch the Sample Demo if one is provided.
- In case of any issues please post your query to the support forum at <http://vibe.novell.com/demosupport>
