

ICSA Certification for BorderManager Firewall Services 3

Novell's BorderManager Firewall Services 3 recently received International Computer Security Association (ICSA) certification. An ICSA-certified product has passed the most comprehensive security vulnerability tests in the industry. BorderManager Firewall Services 3 is a directory-based, security management tool that allows you to protect confidential data and to control users' access to intranets and to the Internet. BorderManager Firewall Services 3 can be used by itself or to augment the protection provided by an existing firewall.

You can purchase a five-user, single-server license for BorderManager Firewall Services 3 for U.S. \$995. BorderManager Firewall Services 3 is also available as part of Novell's directory-based Internet security management suite, BorderManager Enterprise Edition 3. For more information about BorderManager Firewall Services 3, visit Novell's web site at <http://www.novell.com/bordermanager>. For more information about ICSA certification testing for BorderManager Firewall Services 3, visit <http://www.icsa.net/fwcd/novell.shtml>.

shopnovell

Novell recently launched shopnovell, Novell's new online store (<http://www.novell.com/shopnovell>). Shopnovell allows you to instantly purchase most of Novell's products over the Internet. As a result, you can now purchase Novell products directly from Novell. You can also continue to purchase Novell products through a Novell authorized reseller.

Shopnovell is powered by NetWare 5. As a result, shopnovell is fast, reliable, and scalable. Shopnovell's framework is built around Novell, Java, and Common Object Request Broker Architecture (CORBA) components. (For more information about shopnovell's framework, see "shopnovell: Introducing Novell's New Internet Storefront" in Wednesday's *BrainShare Conference Daily*. You can download this article from <http://www.nwconnection.com>.)

Shopnovell is now available to customers in the United States. (Novell will soon make shopnovell available to customers outside the United States.) To browse or to shop at Novell's new online store, visit shopnovell at <http://www.novell.com/shopnovell>.

ISO 9001

Novell Education recently received registration for the ISO 9001 business quality standard. The ISO 9001 standard recognizes organizations that demonstrate educational excellence and technological leadership in directory and Internet-based solutions.

Novell Education offers several certification programs, including CNE, Master CNE, Certified Novell Administrator (CNA), Certified Novell Instructor (CNI), and Certified Internet Professional. Novell training and certification programs are available worldwide through Novell Authorized Education Centers

(NAECs) and through Novell Education Academic Partners (NEAPs), which provide training in colleges, universities, and high schools. For more information about Novell Education, visit <http://education.novell.com>.

1999 Service Excellence Awards

At BrainShare '99 in Salt Lake City, Novell named 26 business partners as recipients of the 1999 Novell Support Connection Service Excellence Award. The winners were chosen from more than 3,000 Novell business partners located in the United States and Canada. Novell selected the 26 winners based on the following criteria: customer satisfaction, commitment to supporting Novell products, and efforts in educating and training local support staff.

The following companies are recipients of the 1999 Novell Support Connection Service Excellence Awards: Advanced Communication Sciences (Edison, NJ); Bay Data Consultants (Norcross, GA); Cal Data Systems Inc. (Houston, TX); Charon Systems Inc. (Toronto, Canada); Compaq Computer Corp. Customer Service (Houston, TX); Condor Technology Solutions (Langhorne, PA); DataSource Hagen (St. Louis Park, MN); Electronic Systems Inc. (Virginia Beach, VA); GE Capital IT Solutions (New Hope, MN); Goliath Networks Inc. (Madison, WI); The GroupWise Integration Experts (Boston, MA); The Harding Group (Arlington, TX); IBM PC Company (Research Triangle Park, NC); Information Decisions (Albany, NY); Integra Networks Corp. (Ottawa, Canada); Integrated Systems Group (Hauppauge, NY); Intrasource (Lexington, KY); Network Business Systems (Anchorage, AK); Network Engineering Inc. (Bountiful, UT); Pomeroy Computer Resources Inc. (Birmingham, AL); Resource Computing Inc. (Spokane, WA); RMI Network Services (Hoffman Estates, IL); Spectrum Supportnet Inc. (Foster City, CA); StrataSys Corp. (Miami, FL); Tech Data Corp. (Clearwater, FL); and Tenet Computer Group (Toronto, Canada).

For more information about the 1999 Novell Support Connection Service Excellence Awards, visit <http://support.novell.com>.

Web Lessons

Novell recently introduced Web Lessons, a cross-platform Java software application that allows teachers to determine which web sites their students can access. Because Web Lessons is tightly integrated with Novell Directory Services (NDS), teachers can designate which students have access to specific web sites, enabling teachers to create different lessons for individual students. Web Lessons is also tightly integrated with BorderManager Enterprise Edition 3 for fast and secure Internet access.

You can purchase a 500-user, single-server license of Web Lessons for U.S. \$595, or you can purchase a Web Lessons School License Agreement (SLA) for U.S. \$.50 per student per year. (You can purchase a 500-user, single-server license of Web Lessons for U.S. \$495 until July 15, 1999.) For more information about Web Lessons, visit <http://www.novell.com/weblessons>. ●
