

Open Source Documentation Localization Quick Start

November 2013

Novell®

Documentation Localization Guidelines

Contact the Documentation Project Manager to volunteer your localization skills. To begin a dialog about localizing documentation for Novell-sponsored open source projects, you can post a user comment from any page of the online manual, send an email to the project's mailing list, or post a message in its community forum. A documentation project editor typically replies via email within five business days to follow up and make further arrangements.
