

Micro Focus Storage Manager 5.3 for eDirectory Release Notes

June 1, 2020

1 About this Release

Micro Focus Storage Manager 5.3 for eDirectory is primarily a maintenance release. Please note the updates and changes below.

2 Admin Client

2.1 Updated Requirements

- ♦ .NET Framework 4.8 on supported platforms
- ♦ Supported platforms include:
 - ♦ Windows Server 2012 R2 and later
 - ♦ Windows 10 (currently supported editions), 64-bit only

2.2 General Updates

- ♦ Now supports TLS 1.2 for connections with the Engine
- ♦ Refreshed look-and-feel

3 Service Components (Engine, Agent, Event Monitor)

3.1 Updated Requirements

- ♦ Open Enterprise 2018 SP1 or later required for installation
(Engine and Agent can still manage storage via proxy for older versions of OES)
- ♦ Open Enterprise 2018 SP2 support added

3.2 General Updates

- ♦ TLS 1.2 now supported and enforced for all service components
- ♦ Third party libraries updated to current versions
