- ◆ [“Legal Notice” on page 3](#)

Product Overview

Micro Focus Vibe Desktop enables you to synchronize your Micro Focus Vibe files with the file system on your computer, then modify the files without accessing the Vibe site directly. Additions and modifications are synchronized between Vibe and your computer.

Vibe Desktop System Requirements

- ◆ [“On Windows” on page 1](#)
- ◆ [“On Mac” on page 1](#)

On Windows

Vibe Desktop 4.0.8 is supported on the following versions of the Windows operating system:

- ◆ 10 (32-bit or 64-bit)

The Vibe system that you connect to must be Novell Vibe 4 or later.

On Mac

Vibe Desktop 4.0.8 on Mac requires Mac OSX 10.15 or later.

The Vibe system that you connect to must be Novell Vibe 4 or later.

Installing and Upgrading to the Vibe Desktop Application 4.0.8

To install the Vibe Desktop Application 4.0.8 as a new or upgrade installation, simply download and install the 4.0.8 software. No additional steps are required.

Vibe Desktop Issues

- ◆ [“Login Information for the Vibe Desktop Application Is Lost” on page 3](#)
- ◆ [“Installation Location Cannot Be a Folder That Includes Extended Characters” on page 3](#)

Team Workspaces within a User’s Home Workspace Are Synchronized Twice

If a user has a team workspace within his or her home workspace (the home workspace is called **My Workspace**), the files in the team workspace might be synchronized to the desktop twice. This happens when users select to synchronize **My Workspace**, and then under **My Teams** select the workspace that is a sub-workspace to the user’s home workspace. If Vibe Desktop is configured in this way, Vibe Desktop maintains two separate copies of the files in the workspace.

The Vibe Desktop Folder Cannot Be Configured to the Same Network Location on Multiple Computers

When selecting a location for the Vibe Desktop folder, you should not configure Vibe Desktop on multiple computers to use the same shared location on the network. This is because Vibe Desktop does not synchronize files properly if two instances are synchronizing to the same shared location, even if the instances are not running simultaneously. Because of this, it is best to always avoid configuring the Vibe Desktop folder to be on a network drive.

Vibe Desktop Does Not Work When the Vibe Server Is Configured with Windows Authentication

If your Vibe server is configured with Windows Authentication, Vibe Desktop cannot synchronize files on your Vibe site because of a port conflict.

For information about how to work around this issue, see [“Integrating Windows Authentication with Vibe Desktop and the Vibe Add-In”](#) in the *Micro Focus Vibe 4.0.8 Administration Guide*.

For more information about configuring Windows Authentication for your Vibe site, see [“Configuring Single Sign-On with Internet Information Services for Windows”](#) in the *Vibe 4.0.8 Installation Guide*.

Login Information for the Vibe Desktop Application Is Lost

If you are using Vibe Desktop in conjunction with the Vibe Add-in, login information for Vibe Desktop is lost if you configure your account information in the Vibe Add-in to use the system proxy configuration (by selecting **Use system proxy configuration**), then later configure the account to not use the system proxy configuration.

Installation Location Cannot Be a Folder That Includes Extended Characters

When installing Vibe Desktop, the folder where you choose to install the application cannot contain extended characters in the folder name.

Vibe Desktop Documentation

For information on how to install, configure, and use Vibe Desktop on your computer, see the [Micro Focus Vibe Desktop for Windows Quick Start](#) or the [Micro Focus Vibe Desktop for Mac Quick Start](#).

For a list of frequently asked questions regarding Micro Focus Vibe Desktop, see the [Micro Focus Vibe Desktop FAQ](#).

For information on how to enable or disable Vibe Desktop, as well as perform other administrative functions, see [“Providing File Access and Editing for Vibe Users”](#) in the [Micro Focus Vibe 4.0.8 Administration Guide](#).
