## Upgrade Path Chart

The following chart represents the upgrade path from ZENworks 2017 version to the most current ZENworks 23.4 version.

The process requires three separate upgrades:

**ZENworks 2017.x to 2020:** The first upgrade is from your version of ZENworks 2017 (2017, Update 1, Update 2, Update 3, or Update 4) to ZENworks 2020. This upgrade includes your ZENworks Primary Servers, database, and Satellites. It does not need to include your managed devices; they can remain on their current ZENworks agent version until the second upgrade.

**ZENworks 2020/2020.1 to 2020.2:** The second upgrade is from ZENworks 2020 or ZENworks 2020 Update 1 to ZENworks 2020 Update 2. Both versions (2020 and 2020.1) can upgrade directly to ZENworks 2020 Update 2. This upgrade includes your Primary Servers, database, and Satellites. You can also upgrade your managed devices at this point or wait until you have upgraded to ZENworks 23.4.

**ZENworks 2020.2 | 2020.3 | 23.3 to ZENworks 23.4:** The third upgrade is from ZENworks 2020 Update 2 or ZENworks 2020 Update 3 or ZENworks 23.3 to ZENworks 23.4. This upgrade includes your Primary Servers, database, Satellites, and managed devices.

## Software and Licenses Download (SLD)

Log in to the [Customer Portal](#) or [Software Licenses and Download](#) site to download the files for upgrade. From the **Downloads** screen, select the **Product**, **Product Name** (entitlement) and **Version** to view the files. Click the **Media Version** column to sort the files.

**NOTE:** Support for Sybase has been discontinued from ZENworks 2020 onwards. You will not be able to upgrade a ZENworks 2017 zone with Sybase to ZENworks 2020 before migrating the database to PostgreSQL.

Sybase to PostgreSQL migration tool can be found on the ZENworks 2020 Download site in the customer portal for OS Installed and Appliances.

Perform MD5 checksum on all downloaded files for data integrity.

## ZENworks 2020.x Licensing

License keys from ZENworks 2017 do not carry over to ZENworks 2020. Retrieve your ZENworks 2020 license keys from the [Customer Portal](#) to activate the environment during the install/upgrade.

During the upgrade the licensing option allows input of the ZENworks Suite license OR individual component licenses. Refer to documentation about [Suite components when activating ZENworks Licenses and Product License states](#).

---

**NOTE:** You can enter the license keys only for ZENworks 2020 version. For ZENworks 2020.x and later versions, you will have to enter the license only through the ZENworks Configuration Center (ZCC). For more information, see [Activating ZENworks Suite or Individual Product License](#).

---

## System Requirements Considerations

One of the primary tasks required to perform a successful ZENworks upgrade is identifying what requirements have changed between your installed ZENworks version and the target current version so that you know what steps you will need to take to account for those changes.

The following sections identify the major ZENworks components whose requirements you need to consider and plan for. Once you know these requirements, the upgrade instructions will help you meet them in the appropriate order.

- ♦ [“Primary Server Operating System” on page 6](#)
- ♦ [“ZENworks Virtual Appliance” on page 9](#)
- ♦ [“Database” on page 10](#)
- ♦ [“Satellites” on page 12](#)
- ♦ [“Managed Devices” on page 12](#)
- ♦ [“User Sources and Certificates” on page 15](#)
- ♦ [“Reporting Server” on page 15](#)

### Primary Server Operating System

The supported operating systems, resources, and hypervisors required to run the ZENworks Primary Server have changed from ZENworks 2017.x versions to the current ZENworks 23.4 release. You need to understand the requirements for the ZENworks 2020.x versions so that you can correctly determine how to meet them and at which point in the ZENworks upgrade process you will need to implement the required changes.

---

**NOTE:** If you are using the ZENworks Virtual Appliance for your Primary Servers, refer to [“ZENworks Virtual Appliance” on page 9](#) for the requirements you need to consider before upgrading.

---

For a detailed listing of Primary Server requirements for ZENworks 23.4, see [Primary Server Requirements](#).

## Operating System

Windows Operating System	ZENworks 2017.x	ZENworks 2020	ZENworks 2020.2	ZENworks 2020.3	ZENworks 23.3	ZENworks 23.4

SLES 15 SP3	No	No	Yes	Yes	Yes	Yes
SLES 15 SP4	No	No	No	Yes	Yes	Yes
SLES 15 SP5	No	No	No	No	Yes	Yes

If you find that you need to upgrade a Primary Server’s operating system, consider the following:

- ◆ In-place upgrades between major operating system versions are not supported. For example, you cannot upgrade from Windows Server 2016 to Windows Server 2019 with the Primary Server on the system as it will most likely result in issues with the Primary Server. Likewise, on SLES, you cannot upgrade from SLES 12 SP5 to SLES 15.
- ◆ If the Primary Server is on SLES, you can perform in-place upgrades of minor operating system versions. For example, you can upgrade from SLES 15 to SLES 15 SP4.
- ◆ If you are interested in moving to the ZENworks Virtual Appliance for your Primary Servers, once you are on ZENworks 2020 Update 2 or Update 3 you can move a Windows or Linux Primary Server to the Appliance. For information, see [Moving from a Windows or Linux Primary to Appliance](#).

If you find that you need to upgrade the database, consider the following:

- ♦ If you are using the Sybase database, migrate to the PostgreSQL database first. For information, see [Database Migration from Sybase to PostgreSQL](#).
- ♦ If you are using an external database, you need to upgrade or migrate the external database to the supported latest version before upgrading the Primary Server.

## Satellites

A Satellite must meet the minimum requirements for a managed device. Refer to the [Managed Devices](#) section for those requirements.

## Managed Devices

The following sections show the operating systems supported as Windows, Linux, and Mac managed devices. For a detailed listing of managed device requirements, see [Managed Devices](#) section in [System Requirements](#).

## Reporting Server

The following table shows the Reporting Server versions provided in each release and the ZENworks versions supported by each Reporting Server.

Reporting Server	ZENworks 2017.x	ZENworks 2020	ZENworks 2020.2	ZENworks 2020.3	ZENworks 23.3	ZENworks 23.4
Version	v6.2, 6.3.2, 6.4.3, 6.4.4	v7.2	v7.5	v7.8	v8.1.1	v8.1.1
Backward Compatibility	NA	2017.x	2020.x, 2017.x	2020.x, 2017.x	2020.x	2020.x

As you plan your upgrade, note that ZENworks Reporting does not support the PostgreSQL database until ZENworks 2020.

## Upgrade from ZENworks 2017.x to ZENworks 2020

The first step in upgrading your ZENworks 2017.x system is to upgrade to ZENworks 2020. To do so, complete the following tasks:

- Make sure you have downloaded the ZENworks 2020 software and licenses you will need. For instructions, refer to [“Software and Licenses Download \(SLD\)” on page 2](#).
- Perform any hardware, operating system, database, or software upgrades that are required before this step of the ZENworks upgrade. Refer to [“System Requirements Considerations” on page 6](#) to help make this determination and [Understanding the Upgrade Order](#) for additional instructions.
- Upgrade your Primary Servers. For instructions, see [Upgrading the Primary Servers to ZENworks 2020](#).  
Or
- If you are using the ZENworks Virtual Appliance, migrate our appliances. For instructions, see [Appliance Migration](#).
- Upgrade your Satellites. For instructions, see [Updating Satellites and Managed Devices to ZENworks 2020](#).

## Upgrade from ZENworks 2020 to ZENworks 2020 Update 2

The second step in upgrading your ZENworks 2017.x system is to upgrade to ZENworks 2020 Update 2. To do so, complete the following tasks:

- Make sure you have downloaded the ZENworks 2020 Update 2 software you will need. For instructions, refer to [“Software and Licenses Download \(SLD\)” on page 2](#).
- Perform any hardware, operating system, database, or software upgrades that are required before this step of the ZENworks upgrade. Refer to [“System Requirements Considerations” on page 6](#) to help make this determination and [Understanding the Upgrade Order](#) for additional instructions.
- Upgrade your Primary Servers. For instructions, see [Upgrading or Migrating the Primary Servers](#) and [Upgrading Linux and Windows Primary Servers to ZENworks 2020 Update 2](#) [Upgrading Linux and Windows Primary Servers to ZENworks 2020 Update 2](#).
- If you are using the ZENworks Virtual Appliance, migrate our appliances. For instructions, see [Appliance Migration](#).
- Upgrade your Satellites. For instructions, see [Updating Satellites and Managed Devices to ZENworks 2020 Update 2](#).

# Upgrade from ZENworks 2020 Update 2 | Update 3 | 23.3 to ZENworks 23.4

To upgrade ZENworks 2020 Update 2 or ZENworks 2020 Update 3 or ZENworks 23.3 to ZENworks 23.4, complete the following tasks:

- Make sure you have downloaded the ZENworks 23.4 software you will need. For instructions, refer to [“Software and Licenses Download \(SLD\)” on page 2](#).
- Perform any hardware, operating system, database, or software upgrades that are required before this step of the ZENworks upgrade. Refer to [“System Requirements Considerations” on page 6](#) to help make this determination.
- Initiate the upgrade process and import the system update from the .zip file or directory into the Zone. For instructions, see [From Software and Licenses Download \(SLD\)](#)
- Upgrade your Primary Servers. For instructions, see [ZENworks System Updates Reference](#).
- Upgrade your Satellites. For instructions, see [Updating Satellites and Managed Devices to ZENworks 23.4](#).
- Upgrade your managed devices. For instructions, see [Updating Satellites and Managed Devices to ZENworks 23.4](#).
