## Speakers Profile (in alphabetical order)

### Erno DeKorte

Erno has been speaker on many conferences like BrainShare, GroupWise Summits and NUI events. He has a special interest in products integrating GroupWise with PDA's. Erno has written many articles for several magazines. for example the GroupWise Advisor Magazine. He has also been one of two writers of the Novell Press "GroupWise 7.0 Administrator Solution Guide" and the main author of the "GroupWise Powerguide".

### Gerard McDonnell

Gerard spent the first 5 years of his tenure with Novell in the Middle East as a lead consultant with our top clients. During his more recent years with Novell in Europe, he developed the Identity Management consulting practice, implementing large scale solutions to many major banks, government departments and telcos in the UK, Ireland and Nordics. He later became the Alliance Director for IBM in EMEA, focusing on the rapidly emerging Linux and IdM business with IBM as a whole. He now has returned to the region to head the regional Novell operation. Gerard is the Director of Novell MiddleEast.

### John Lincoln

John Lincoln is the force behind the Middle East GroupWise User Group. John is the IT Chief of AlMabani Contracting. John has been in the IT Business since 1969 and has a Master's Degree in Science and Information Network Systems. He has been using Novell since 1984 in the early days when it started and has installed many networks since then. He designed and implemented a WAN for AlMabani General Contractors spanning over multiple countries and many Project Sites which are linked via Leased Line, Satellite, WiFi and Frame Relay and Internet Backbones. They are a 100% Novell solutions Customer using Novell offerings NetWare, GroupWise, Linux solutions.

### Michael Sturm

Michael is Chief Operating Officer of Maintainet AG, Germany. Maintainet is a Novell Platinum Partner in EMEA with offices in the Middle East and Germany. Maintainet has also become the exclusive GWAVA distributor for the Middle East in 2005. The company's core competences are in IDM and GroupWise sector. Besides his job he is the co-founder along with Herbi, Uli and Marco of GroupWise & Friends, the German speaking GroupWise community and is currently the Vice President of this organization.

### Robin Redgrave

Robin has been working with GroupWise and its predecessors for over 17 years. He has held jobs in both IS&T and System Engineering, specializing in messaging. In 1996 he joined Novell Consulting as a GroupWise consultant. Robin works on GroupWise projects in Africa, the Middle East and throughout Europe typically designing, implementing and health checking GroupWise systems as well as writing custom applications. He is a regular speaker at BrainShare and other conferences.

### SathyaMurthy

SathyaMurthy has been working around Novell Technology for the past 10 years. After working as the Novell Product Manager for TechData, SathyaMurthy worked for Novell as a Country Manager and actively promoted Novell in Oman, UAE and Qatar. GroupWise has been one of his favourites. Currently, SathyaMurthy is with Enigmatis, who proactively consult and implement Linux and Novell solutions in the MiddleEast.

### Veena Dorairajan

Veena Dorairajan, an Engineering graduate from Iowa state University has been working for Novell Middle East as Consultant for the past 5 years. She is involved in both support and consulting activities for Novell. She actively supports and implements GroupWise, Identity Manager, eDirectory, and solutions based on Novell technology. She has done large GroupWise installations and upgrades.

## GroupWise is **THE** leading **ICE** solution on **Linux**

Integrated Collaboration Environments (ICE) are becoming more important for many organizations by the day and the people behind the **GroupWiseR** want to make sure that many more people recognize the **great strengths** of GroupWise. Especially the latest version **GroupWise 7.0** offers a wide range of valuable services and is the only Integrated Collaboration Environment which runs all of these services on **Netware**, **Linux** and **Windows**.

The new **version 7.0** also includes clients for **any desktop operating system**, like almost all Windows versions, **Linux**, Apple OS-X and a very rich WebAccess client. This version also includes new **connector** which allows Outlook to use the strong GroupWise backend. Novell and the Novell Partners also offer many solutions to present GroupWise information on PDA's & phones.

This event is brought to you in cooperation with the successful **GUG-ME** and many important GroupWise partners. Local and International Speakers will offer you an attractive mix of interesting sessions and you will discover a lot of new possibilities with GroupWise.
