ZENworks 11 SP3 Asset Inventory - Detecting Windows 8 Metro Applications

February 2014
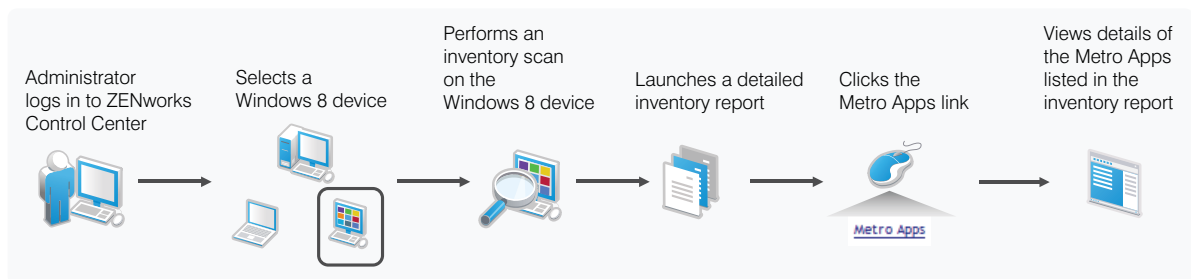

Novell®

ZENworks 11 SP3 supports Windows 8 as a new platform. For each Windows 8 managed device, the device's inventory report includes a listing of the device's Metro Applications in addition to the standard list of software products.

1 Prerequisites

- Ensure that you have the View Detailed Inventory right.
- Ensure that you have a Windows 8 device with Metro Applications installed.

2 Workflow Diagram

3 Procedure

To view the list of Metro Applications for a Windows 8 managed device:

1 Perform an inventory scan on a Windows 8 device that has Metro Applications installed.

2 After the inventory scan is finished, open the device's detailed inventory report in ZENworks Control Center:

    2a Click *Devices > Workstations*.

    2b Select the Windows 8 device for which the inventory scan is completed.

    2c Click the *Inventory* tab.

    2d Click *Detailed Hardware or Software Inventory.*

    2e Click the *Metro Apps* link in the inventory report.

        The details of the Metro Applications that are installed on the Windows 8 device are displayed.
