About This Guide

This ZENworks Product Licensing Reference explains how to enable product evaluations and manage product licenses. The guide includes the following sections:

- Chapter 1, “ZENworks Products,” on page 7
- Chapter 2, “Evaluating a Product,” on page 9
- Chapter 4, “Activating a Product,” on page 13
- Chapter 5, “Deactivating a Product,” on page 15
- Chapter 6, “Possible License State Changes,” on page 17

Audience

This guide is intended for ZENworks administrators.

Feedback

We want to hear your comments and suggestions about this manual and the other documentation included with this product. Please use the User Comments feature at the bottom of each page of the online documentation.

Additional Documentation

ZENworks is supported by other documentation (in both PDF and HTML formats) that you can use to learn about and implement the product. For additional documentation, see the ZENworks documentation Web site.

The ZENworks family of products include the following:

- Asset Management
- Configuration Management
- Endpoint Security Management
- Full Disk Encryption
- Patch Management
- Asset Inventory for Linux
- Asset Inventory for Windows/Macintosh

All of the products are installed by default. This enables you to activate products by providing a license key or to evaluate products for which you have not purchased a license. You can also deactivate licensed or evaluation products if you no longer intend to use them.

For other actions that you can perform to view license information, see “License Commands” in the ZENworks Command Line Utilities Reference.

For information on renewing Patch Management subscription licenses, see “Patch Management” in the ZENworks 2017 Quick Start Reference.
1. Log in to the ZENworks Control Center.
2. Click the Configuration tab.
3. In the Product Licensing panel, click the product you want to evaluate.
4. In the Product Activation panel, select the Evaluate/Activate product option.
5. Select Use Evaluation option, then click Apply.
6. Click OK.

For more information on license state changes, see Section 6, “Possible License State Changes,” on page 17.
3 Extending the Evaluation Period of a Product

1. Log in to the ZENworks Control Center.
2. Click the Configuration tab.
3. In the Product Licensing panel, click the product you want to evaluate.
4. In the Product Activation panel, select the Evaluate/Activate product option.
5. Specify the extended evaluation license key in Product License Key, then click Apply.
6. Click OK.

For more information on license state changes, see Section 6, “Possible License State Changes,” on page 17.
4 Activating a Product

1. Log in to the ZENworks Control Center.
2. Click the Configuration tab.
3. In the Product Licensing panel, click the product you want to activate.
4. In the Product Activation panel, select the Evaluate/Activate product option.
5. Specify the license key in Product License Key, click Apply.
6. Click OK.

For more information on license state changes, see Section 6, “Possible License State Changes,” on page 17.
Deactivating a Product

1. Log in to the ZENworks Control Center.
2. Click the Configuration tab.
3. In the Product Licensing panel, click the product you want to deactivate.

4. In the Product Activation panel, select the Deactivate product option.
5. Click Apply.
6. Click OK.

For more information on possible license state changes, see Section 6, "Possible License State Changes," on page 17.
Possible License State Changes

The transition of a product to a new licence state depends on the current license state of the product and the license state of the product prior to the current license state. Accordingly, you can choose to evaluate, activate, or deactivate a product.

For example:

- A product that is currently deactivated can be moved to an evaluation, extended evaluation, or active state.
- A product that has been transitioned from an evaluation state to deactivated state can be now moved to an active, evaluation, or extended evaluation state.

**NOTE:** If you change the license state on a ZENworks Server, it might take up to 30 minutes for the license state change to be reflected on the managed device. To enable the license state change to be immediately reflected on the managed device, restart the zenserver services on the ZENworks Server.

**Table 6-1  Possible License State Changes for ZENworks Products**
